Subject 3D Oil Limited - West Seahorse-3 Morning Updates

Good afternoon everyone,

This morning the West Triton Rig was jacking down and preparing to move from Speke-1 (Apache) to the West Seahorse location (3D Oil). If all goes to plan, the rig should be in position, jacked up and preparing to spud by tomorrow evening.

I will be circulating a daily e-mail update each morning to keep you informed of the operations and forward plan for the rig. I anticipate that the first of these will be tomorrow morning providing rig comms have been re-established by then.

Regards,  
Tony
