*Daily
Drilling +
Geological reports*

The disk comprises a backup of all the information published to the secure website during the drilling and evaluation of Baleen-4. This includes edited Daily Drilling and Daily Geological Reports, LWD and Mud Log images and data, survey listings and plots along with some sample images etc. It should not normally be used as the definitive source of LWD and survey data - Well Completion Report - Basic Data and Interpretive Report volumes will be issued subsequently.

Baleen-4 (Spud Date 22/09/04) Ocean Bounty
