Oil: 100 gals/day (pumping) + *Barly* - 20 months.  
*Australia's Report* by ? Wade, Washbrough + Wand " 137 gals/day (Latest developments)."

*Oil Present*

GENERAL (Conclusion, structure, plugging, etc.)

Well 1940. 4867. P. 163  
 "Some oil produced by pumping. operations suspended until early in 1940. When an attempt to was made to shut-off water that was entering at the bottom of bore. A cement plug was built-up to 1259' and it was reported that bailing tests conducted since then indicate that at least a partial shut-off has been effected"
