

Ocean Patriot Stop Card of the Week 20 August 2006

Nexus STOP card of the week winner is Trevor Moldenhauer who, using the STOP program principles, noticed the mobile cutting trolley pushed up against the bulkhead where the oxygen cylinder valve could not be reached easily. In case of a flashback, there would difficulty turning the oxygen cylinder valve off in a hurry. The trolley was moved to a better position and deck crews informed of the need for access to cylinder valves. Thanks to Trevor for observing an unsafe condition, rectifying it and making sure equipment is left in a safe condition.
